

SB29 139.7MM HI VIZ BOLLARD

HI VIZ BOLLARD AVAILABLE IN 3 DIFFERENT SIZES

New black and yellow hi viz bollards are available in three different sizes and two fitting options. Manufactured from circular hollow section mild steel, with a black powder coated finish and two hi viz stripes.

The SB.29FSM bollard is surface mounted with four bolt holes, to bolt down to concrete* available in two height options. 900mm and 1200mm.

The SB.29FS fixed sunken bollard is also manufactured from CHS mild steel. Available uncapped* to give the option of filling with concrete for extra strength. Also available in 90mm diameter see our SB2990.

*Fixings not included but available on request

*Uncapped option is made to order
